## Train to be a DSA Approved Driving Instructor (ADI)

If you are looking for a new career, look no further.  
Our Driving Instructor Training opens the door to a challenging new career

We can teach you as quickly, or slowly, as your personal situation dictates. Experience has taught us everyone has different aims and we are only a phone call away from discussing yours. We are extremely flexible which has proven highly successful.

**The Initial Assessment:** We give a 2-3 hour assessment session before anyone starts their Driving Instructor Training with us. This initial session briefly covers all 3 parts of the ADI training giving you a real taster of the exam process. The initial assessment has been proven to be very beneficial as it gives you a complete overview of the whole course. We will be able to judge approximately how many hours tuition you will require to prepare you for passing the examinations. You also meet our company representative who can answer any questions you may have.

**The Examination Process...** To qualify to be an ADI you must pass three exams

- Part 1 - a Theory/Hazard Perception Test
- Part 2 - a Practical Test of your Driving Ability
- Part 3 - a Practical Test of your Ability to Teach

All three exams, in that order, must be taken within two years.  
You have only three chances to pass each of the two practical tests.
